Participation in HESS TIMBER

Dear Mr./Mrs....

We are pleased to announce that HASSLACHER NORICA TIMBER acquired a share of 75% of HESS TIMBER GmbH & Co KG in Kleinheubach/Germany.

The participation in HESS TIMBER, as one of the leading and most innovative engineered-timber construction companies, allows us to pool our strengths to become an even stronger partner for challenging engineered-timber projects worldwide. Wood is experiencing a renaissance. But new technologies are demanding higher skills in engineering. We will support this progress with our competence and know-how.

HESS TIMBER is experienced in the production of special components and products such as three-dimensionally curved free forms or hybrid systems from different wood materials. Together with HESS TIMBER and our production sites in Austria, we are able to offer our customers a unique range of special products as well as consulting and engineering services.

Sincerely,

Christoph Kulterer
CEO and President
HASSLACHER Holding GmbH
